募集要項

A global and one of the world's largest Insurance Service provide is seeking an experienced **Site Reliability Engineer (Azure)** to join its Data Management Office (DMO) – SRE team.

Responsibilities:

- Ensure reliability, performance, and availability of Azure data platforms (with a strong focus on Azure Synapse)
- Monitor systems, identify issues, and resolve production incidents (P1/P2)

- Troubleshoot across data pipelines, Azure services, and SQL environments
- Build and maintain CI/CD pipelines (Azure DevOps – YAML)
- Automate operations (monitoring, alerting, recovery, deployments)
- Support releases, changes, and system improvements
- Work closely with engineering teams to improve system stability
- Define and maintain SLIs, SLOs, and error budgets to support service reliability

Why should you apply:

- Long-term and stable project in a global insurance leader
- Hybrid work setup with a collaborative, international team
- Career growth opportunities within a diverse and inclusive environment

スキル・資格**Required Skills:**

- 5+ years of technical work experience
- Strong hands-on experience with Azure Synapse (critical requirement)
- Experience as an Azure SRE / Cloud Engineer / Platform Engineer
- Solid understanding of Azure data platforms + SQL (Azure SQL / SQL Server)
- Experience with CI/CD (Azure DevOps, YAML)
- Strong troubleshooting and incident management skills

Why should you apply:

- Work on enterprise-scale Azure data platforms within a global insurance leader
- Join a mature SRE organization focused on reliability and operational excellence
- Hybrid working model with long-term contract stability
- Strong extension potential based on performance
