募集要項

This is an exciting opportunity for a skilled Java Developer to contribute to innovative projects in the technology and telecoms industry. Based in Tokyo, the role requires expertise in Java programming and fluency in both Japanese and English to collaborate effectively across teams.

Client Details

The hiring company is a well-established organization in the technology and telecoms industry, recognized for delivering advanced solutions and cutting-edge projects. This Tokyo-based firm operates at a scale that allows for impactful work while maintaining a collaborative work environment.

Description

- Develop and maintain Java-based applications to meet project requirements.
- Collaborate with cross-functional teams to design efficient and scalable solutions.
- Conduct code reviews to ensure high-quality standards are met.

- Identify and resolve technical issues in a timely manner.
- Translate technical documentation and requirements between Japanese and English.
- Participate in project planning and progress discussions.

Job Offer

- Opportunity to work on impactful projects in the technology and telecoms industry.
- Collaborative work environment in the heart of Tokyo.
- Chance to enhance bilingual skills and technical expertise.
- Exposure to cutting-edge technologies and industry trends.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Serina Miyazono on +81 3 6627 6130.

スキル・資格

- Proficiency in Java programming and related frameworks.
 - Fluency in both Japanese and English, with strong communication skills.
 - Ability to work effectively in a collaborative, multicultural environment.
 - Strong problem-solving skills and attention to detail.
 - Knowledge of software development lifecycle and agile methodologies.
-
