募集要項

Design, build, and maintain scalable full-stack applications while ensuring high code quality, robust architecture, and adherence to modern development best practices. Lead technical initiatives, contribute to system design, and drive Agile delivery across cloud-native and event-driven environments.

Client Details

This opportunity is with a well-established, medium-sized company operating within the Technology & Telecoms sector. The organization is committed to leveraging innovative solutions to drive progress and build impactful digital experiences.

Description

- Design, develop, and maintain scalable full-stack applications using Java, Spring frameworks, and modern cloud technologies.
- Lead code quality initiatives through reviews, testing strategies, and best practices such as TDD and domain-driven design.

- Contribute to system architecture and technical design, including event-driven systems and API development.
- Drive Agile delivery by participating in and leading Scrum ceremonies while supporting CI/CD, automation, and DevOps processes.

Job Offer

- Opportunity to work on cutting-edge projects in the Technology & Telecoms industry.
- Experience working with a medium-sized company in Tokyo, a global tech hub.
- Collaborative and innovative work environment.
- Flexible work arrangements to support work-life balance.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Serina Miyazono on +81 3 6627 6130.

スキル・資格

- Proven experience in full-stack development with strong proficiency in Java, Spring frameworks, and RESTful API design.
 - Solid understanding of software engineering best practices, including Agile methodologies, TDD, and domain-driven design.
 - Hands-on experience with cloud platforms, CI/CD pipelines, and DevOps tools such as Jenkins, Docker, and Kubernetes.
 - Strong communication and leadership skills, with the ability to guide technical discussions, perform code reviews, and support team delivery in a remote environment.
