募集要項

【Bilingual (N2+)】 Junior IT Governance & Security Specialist | FinTech Infrastructure Company | Tokyo | Up to 8M JPY

Why You Should Apply

- Rare opportunity for early-career IT professionals to gain exposure to CIO-level initiatives, IT strategy, security governance, and regulatory environments within the financial sector
- Develop expertise across Information Security, Risk Management, Audit, Vendor Risk, Incident Management, and Business Continuity—building a strong foundation for a long-term career in Governance, Risk & Compliance (GRC)
- Contribute to the modernization of governance and security practices through automation, process improvement, and AI-enabled initiatives

Responsibilities

- Support IT governance, risk management, and information security initiatives
- Coordinate internal and external audits and track remediation activities
- Facilitate communication between IT teams, business stakeholders, clients, and external partners
- Assist with incident management, root-cause analysis, and business continuity planning
- Conduct vendor and third-party risk assessments
- Support security awareness activities, governance reporting, and compliance initiatives
- Identify opportunities to automate operational processes using Python, scripting, low-code tools, or GenAI technologies
