### 募集要項

A global oil and energy company is looking for a Supply Planner Manager. The selected candidate will lead end-to-end supply, production, and raw material planning to optimise inventory, ensure availability, and resolve supply constraints across the network. This is a hybrid role.

With a global workforce of thousands, this multinational oil company offers a broad range of career opportunities for skilled talent across multiple disciplines. They have an expansive global reach and their gas stations can be found across multiple regions. This is a prosperous company to join for those who would like to work alongside other industry experts.

#### Keywords:

Job Ref: 3TCBW1

**Responsibilities:**

- Develop and execute replenishment plans to balance supply and demand across warehouses and sites
- Lead mid- to long-term production and raw material planning aligned with forecasts and inventory targets
- Identify capacity and supply constraints through RCCP and scenario planning, recommending mitigations
- Manage inventory levels to minimise stockouts, excess, and obsolescence risks
- Collaborate with cross-functional teams to align planning strategies with business objectives and S&OP processes
- Track KPIs and drive continuous improvements in planning accuracy, supply chain efficiency, and digital initiatives

**Requirements:**

- Bachelor's degree or above in supply chain management, Logistics, Business, or a related field
- 8-12 years in supply planning, replenishment, or inventory management within FMCG, food & beverage, or manufacturing industries
- Experience in Supply Planning using an advanced digital Planning tool
- Skilled in supply chain software and ERP systems (SAP ECC, S4 Hana, JDE)
- Proficient in English and Japanese
