募集要項

Company and Job Overview

Our client, a specialty chemical and advanced materials manufacturer, is looking to hire a Market Development Specialist to drive market research initiatives and enhance their market presence across Malaysia.

Job Responsibilities

- Conduct market research through visits to prospective customers and suppliers, either jointly with trading partners or via direct engagement
- Develop business strategies and identify new business opportunities
- Provide advisory support to drive and enhance sales activities
- Key product portfolio includes Industrial chemicals, high-precision, injection-moulded components, industrial 3D printers and related filaments and heat-shield coatings

- Documentation and reports

Job Requirements

- Degree/ Diploma in any engineering or chemical-related discipline
- Minimum 3 years of experience in technical B2B sales and/or a strong network in Malaysia's electronics/semiconductor industry
- Experience working in semiconductor, electronics or OSAT companies is an advantage
- Able to work independently and collaboratively in a small, multinational team
- Must be a Malaysian citizen

Interested applicants, feel free to click **APPLY NOW**.
