募集要項

Job Title: Engineer / Senior Validation Engineer

Location: Singapore

Industry: Contract Research Organization (CRO) / Life Sciences / Pharmaceutical Manufacturing

The Company:

Our client is a globally recognized life sciences organization with operations across 20 countries. They are a trusted partner to leading pharmaceutical and biotechnology companies, playing a critical role in bringing new drug therapies to market safely and efficiently. Their Singapore site is a key part of their global network and operates to the highest regulatory standards.

This is a hands-on role with leadership responsibilities for an experienced validation professional who thrives in a fast-paced, highly regulated environment. You will lead qualification and validation projects across equipment, facilities, utilities, and processes, ensuring full compliance with cGMP and ISO 17025 requirements while managing stakeholder relationships and a small team. If you are someone who takes ownership, drives projects with precision, and enjoys working at the intersection

of science and engineering, this is for you.

Qualifications:

- Minimum 4 years of experience in a GMP or ISO 17025 environment
- Degree in Engineering, Biomedical Sciences, or a related discipline
- Solid working knowledge of system commissioning, qualification, and validation per ISPE GAMP 5 and USP guidelines
- Experience using CSV
