募集要項

Job Title: QA Senior Manager - F&B

Location: Singapore

Your New Company A well-established consumer goods organisation with a strong presence in manufacturing and distribution is looking to strengthen its quality assurance and regulatory leadership capabilities. With operations spanning multiple markets and a growing export footprint, the company is committed to maintaining high standards in product quality, food safety, and regulatory compliance.

Your New Role As QA & Regulatory Manager (Regional), you will oversee quality assurance, food safety, and regulatory compliance across multiple manufacturing sites, external partners, and regional markets.

This role is highly strategic and hands-on, requiring you to drive governance frameworks, manage risk, and ensure compliance across diverse markets, while supporting business expansion and maintaining strong quality standards. **Key**

Responsibilities 1. QA Governance & Risk Management

- Lead and enhance quality assurance frameworks across manufacturing sites, external partners, and regional operations.
- Review and assess major quality, food safety, and compliance issues, driving corrective and preventive actions.
- Identify and escalate critical risks to senior management where required.

2. Supplier, Material & Packaging Qualification

- Oversee qualification and approval processes for raw materials and packaging.
- Evaluate alternative materials to ensure compliance with quality, safety, and regulatory standards.

3. OEM & Partner Oversight

- Manage qualification and audit processes for external manufacturing partners.
- Conduct gap assessments and ensure follow-up actions are implemented.
- Ensure partners meet established quality, safety, and compliance expectations.

4. Regulatory Compliance & Market Requirements

- Ensure product compliance with applicable food regulations, labelling requirements, and product claims across multiple markets.
- Assess regulatory requirements for new products, ingredients, and market expansions.
- Maintain regulatory frameworks, documentation, and compliance processes.
- Engage with internal stakeholders and external advisors to support regulatory alignment.

5. QA Support & Capability Development

- Provide guidance to internal teams on quality investigations, food safety, and compliance matters.
- Support alignment of QA practices across different sites and business units.
- Promote sharing of best practices and strengthen QA capabilities across the organisation.

Qualifications

- Degree in Food Science, Food Technology, Chemistry, or a related discipline.
- Minimum 8+ years of experience in QA, food safety, or regulatory compliance within food or beverage manufacturing.
- Experience managing quality and compliance across multiple sites or external manufacturing partners.
- Strong knowledge of food safety systems (e.g. HACCP, GFSI) and regulatory requirements.
- Familiarity with regional and export market regulations and labelling standards.
- Good understanding of manufacturing processes and operations.
