募集要項

COMPANY OVERVIEW
Our Client is a well-established medical device manufacturing industry precision medical consumables and surgical devices for healthcare facilities worldwide. The organization is hiring for Production Manager, to lead production operations, develop high-performing teams, and contribute to the delivery of quality products that support the healthcare sector.

JOB RESPONSIBILITES

- Develop and execute production plans to ensure timely delivery and quality-compliant production.
- Oversee daily production activities, including cleanroom operations and manufacturing processes.
- Manage and optimize plastic injection molding operations through process improvements, mold management, and defect reduction initiatives.

- Implement Lean Manufacturing practices, including 5S and TPM, to improve productivity, efficiency, and cost performance.
- Collaborate with cross-functional teams to ensure smooth production flow and effective equipment utilization.
- Ensure compliance with applicable quality and regulatory requirements, including ISO 13485, GMP, and other relevant standards.
- Lead, train, and develop production personnel while promoting a culture of safety, quality, compliance, and continuous improvement.

JOB REQUIREMENTS

- Possesses Bachelor's Degree in Engineering, Production Management, Biomedical Sciences, or a related field.
- Preferably with at least 5 years of production management experience in medical device / precision components manufacturing, experience in cleanroom operations would be added advantage.
- Knowledge in ISO 9001, ISO 13485, GMP, 5S as well as Lean Manufacturing methodologies

Interested candidates are welcomed to apply online.
