募集要項

The LNG Shipping Operations & Chartering Support Executive will be responsible for the seamless day-to-day execution of LNG cargo operations and commercial shipping activities. Working closely with traders, vessel operators, brokers, and terminals, you will ensure the efficient movement of LNG cargoes while providing critical analytical support for freight market activities and vessel procurement.

Key Responsibilities

- LNG Ship Operations & Chartering Support:
 - Support the evaluation of shipping solutions for the lifting and transport of FOB cargoes.
 - Assist in spot and short-term chartering requirements, including broker communication, charter party (CP) review, and safety coordination.
 - Contribute to the evaluation of vessel procurement options (TCP/COA) based on trading structures.

- Administer commercial terms for Time Charter Parties and Contracts of Affreightment.
- Issue voyage instructions and manage operational communications under applicable charter terms.
- Support cargo-level vessel allocation planning (Cargo-by-Cargo).
- Commercial & Financial Coordination:
 - Align cargo schedules and voyage execution with traders and external stakeholders.
 - Prepare data on the commercial implications of operational issues and claims.
 - Manage financial settlements related to chartering, including demurrage calculations, negotiations, and claim administration.
 - Oversee charter hire insurance and related financial arrangements.
- Market Intelligence & Analysis:
 - Monitor freight market trends and disseminate supply/demand intelligence.
 - Produce analytical reports on newbuilding activity and vessel availability.
 - Support profitability assessments and FOB cargo economics.
 - Assess and escalate the commercial impact of schedule deviations or delays.
- Compliance & Risk Management:
 - Monitor transactions and counterparties for sanctions exposure and regulatory compliance.
 - Provide supporting data for operational risk assessments and internal policy reviews.

Key Requirements

- Professional Experience:
 - Minimum of 3 years of experience in LNG Shipping, marine operations, or a related maritime role.
 - Proven track record in shipping operations, cargo scheduling, and third-party coordination.
 - Experience in merchant marine shore operations or LNG-specific vessel operations.
- Technical Skills:
 - Strong exposure to Charter Party review, ADP management, and scheduling.
 - Sound understanding of LNG vessel design and performance capabilities.
- Education: Bachelor's degree in a relevant discipline (Marine Studies, Engineering, Business, or Economics).

Company Overview

Our client is a global leader in the energy sector, specifically within the LNG market. With a robust international presence and a commitment to energy security and sustainable growth, they operate at the forefront of global energy trading and maritime logistics. This is an excellent opportunity to join a high-performing team in their Singapore office, supporting large-scale, complex shipping operations and strategic chartering activities.
