募集要項

Drive end-to-end modernization of core insurance systems, leading complex IBM mainframe transformation initiatives and hybrid architecture design.

Partner with global stakeholders to deliver scalable, API-enabled solutions integrating legacy and open platforms.

Client Details

A leading global insurance organization with a strong presence in Japan, undertaking large-scale modernization of core policy administration systems and IBM mainframe environments.

Description

- Lead modernization initiatives (rehost/rebuild) for IBM Mainframe systems
- Design hybrid architectures integrating mainframe and open systems
- Enable API connectivity using z/OS Connect and modern integration patterns
- Act as Technical Lead / Program Manager on large-scale enterprise engagements
- Manage multiple vendors and coordinate cross-functional global teams
- Oversee upstream activities including design reviews, root cause analysis (RCA), and risk management
- Drive holistic, end-to-end delivery across PAS domains (Policy, Claims, Billing)

- Collaborate with offshore teams and global stakeholders, including IBM partners

Job Offer

- Opportunity to shape large-scale modernization within a global insurance leader
- Exposure to cutting-edge hybrid and API-driven architectures
- Collaborative, international working environment

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Serena Wu on +81 3 6627 6137.

スキル・資格

- Extensive experience in insurance Policy Administration Systems (PAS)
- Proven track record in mainframe modernization (rehost, rebuild, migration)
- Strong expertise in IBM Mainframe technologies and integration approaches
- Experience designing hybrid architectures across legacy and modern platforms
- Demonstrated leadership across complex, multi-vendor transformation programs
- Strong stakeholder management and communication skills
- Experience working in global environments with cross-regional teams
- Business-level Japanese (mandatory) and working English; Spanish is a plus
- Ability to lead issue resolution, RCA, and risk mitigation end-to-end

会社説明

A leading global insurance organization with a strong presence in Japan, undertaking large-scale modernization of core policy administration systems and IBM mainframe environments.
