募集要項

Company Overview: One of the leading Japanese MNC into trading industry involved in installation and servicing support of industrial machineries for their manufacturing clients.

Job Overview:

To independently lead and execute industrial machine installation and turnkey projects from kickoff to final handover, ensuring timely delivery, safety compliance, and stakeholder satisfaction.

Job Responsibilities:

- Project Execution: Manage end-to-end turnkey projects and machine installations from planning and scheduling to final commissioning and handover.

- Stakeholder Coordination: Liaise with customers, vendors, subcontractors, and internal/site teams, including MEP coordination.
- Monitoring & Control: Track project progress, identify risks/delays, and implement corrective actions to meet timeline, cost, and quality targets.
- Safety & Quality: Enforce strict compliance with industrial safety norms, permit systems, and quality standards at the site.
- Commissioning: Lead installation, testing, final buy-off, and successful customer handover.
- Documentation: Prepare and submit MIS reports, progress updates, and project closure documents.
- Commercial Support: Assist with scope reviews, subcontract coordination and sales tracking.
- Service Support: Provide field service or maintenance support as required.
- Site Management: Travel extensively and independently manage on-site execution responsibilities.

Job Requirements:

- Diploma or Engineering in Mechanical, Electrical, or Mechatronics having strong experience of 5 - 8 years in machine installations, industrial projects, MEP works, or turnkey project execution in automotive, automobile, or manufacturing project environments.
- To handle the Machine Installation Project and Service support after Machine installation.
- Deep knowledge of planning, scheduling, site execution, vendor management, and customer coordination.
- Ability to manage the complete project lifecycle independently with minimal supervision.
- Strong documentation and reporting skills, including handover dossiers and closure documents.
- Solid understanding of safety standards, execution quality, and delay prevention.
- Strong English communication skills (multilingual is a plus).
- Experience in maintenance, service engineering, or after-sales support is an added advantage.
- Highly self-driven individual with strong ownership and a focus on successful customer handover.
- Must be comfortable for visiting various customer sites across Karnataka.
