募集要項

Responsibilities

- Analyze business requirements and translate them into SAP solutions aligned with operational needs.
- Participate in SAP implementation, rollout, enhancement, and support projects within SAP S/4HANA environments.
- Perform system configuration, testing, and functional documentation.
- Work closely with cross-functional teams to ensure smooth integration between SAP modules.
- Troubleshoot system issues and provide effective solutions to business users.
- Communicate with stakeholders regarding project progress, challenges, and recommendations.
- Identify opportunities for process improvements and propose best-fit solutions.

Requirements

- Bachelor's degree in Computer Science, Information Technology, Engineering, or related disciplines.
- At least **5 years of experience** in SAP implementation or application support.
- Hands-on experience in one or more SAP modules:
 - FI
 - CO-PC
 - SD
 - MM
 - PP
 - BPC
- Experience working on SAP S/4HANA projects is preferred.
- Strong configuration and end-to-end implementation experience.
- Excellent analytical, troubleshooting, and problem-solving skills.
- Proven ability to work directly with business users and stakeholders.
- Strong communication skills and a collaborative mindset.
- Ability to adapt to new technologies and business requirements.
