募集要項

Responsibilities

- Lead and manage manufacturing operations to achieve business targets in Safety, Quality, Cost, Delivery, and People Development (SQCDM).
- Develop and execute operational plans aligned with company objectives.
- Drive continuous improvement activities to enhance productivity, efficiency, and product quality.
- Manage and develop managers, engineers, supervisors, and production teams to achieve operational excellence.
- Collaborate with cross-functional teams including production planning, quality, logistics, and engineering to ensure smooth operations.
- Monitor key manufacturing KPIs and report performance to senior management.
- Lead root cause analysis and implement corrective and preventive actions for operational issues.
- Ensure compliance with company standards, safety requirements, and manufacturing best practices.

•

Qualifications

- Bachelor's Degree in Engineering or related field.
- Minimum 10 years of manufacturing management experience, preferably in automotive manufacturing.
- Strong background in machining and high-volume production environments.
- Leadership capability with experience managing cross-functional teams.
- Good command of English communication (Toeic 600)
