募集要項

Job Description

- * Plan, coordinate, and supervise infrastructure construction projects within industrial estate development from initiation through completion.
- * Oversee the construction of roads, drainage systems, bridges, earthworks, retaining structures, and other civil infrastructure.
- * Manage project schedules, budgets, resources, contractors, and construction activities to ensure timely and cost-effective project delivery.
- * Review and interpret engineering drawings, specifications, BOQs, contracts, and technical documents.
- * Coordinate with civil/structural engineers, consultants, QA/QC, contractors, and other stakeholders to ensure construction activities comply with approved designs and specifications.
- * Monitor site progress, construction quality, work methods, and resource utilization.
- * Identify and resolve technical and site-related issues, including potential delays, constructability concerns, and project risks.
- * Ensure compliance with applicable technical standards, safety regulations, environmental requirements, and company standards.
- * Implement quality control and risk management procedures and prepare regular project progress reports for management.

Requirements

- * Bachelor's degree in Civil Engineering, Construction Management, or a related field.
- * Minimum 8 years of experience in infrastructure/civil construction, with at least 4 years in a managerial role.
- * Proven experience in industrial estate, infrastructure, road, drainage, earthwork, or other large-scale (min 500 Ha) civil projects.
- * Strong understanding of civil construction methods, infrastructure engineering, project scheduling, and cost control.
- * Strong ability to manage contractors and coordinate multiple stakeholders.
- * Strong leadership, problem-solving, decision-making, and communication skills.
- * Proficient in construction management administration and project documentation.
- * High integrity and strong commitment to safety and quality.
- * Proven ability to work under pressure, prioritize tasks, and manage multiple projects simultaneously.
- * PMP or relevant professional certifications are preferred.
