募集要項

Job Responsibilities

- Analyze production data and prepare regular performance reports.
- Monitor production KPIs, productivity, efficiency, yield, and output achievement.
- Support production planning and forecasting activities.
- Identify operational issues and recommend improvement actions.
- Drive continuous improvement initiatives to enhance productivity and cost efficiency.
- Collaborate with Production, QA, Maintenance, and other related departments to ensure smooth operations.

Requirements

- Bachelor's Degree in Industrial Engineering, Manufacturing, Statistics, Operations Management, or related field.
- Minimum 3 years of experience in Production Planning, Production Analysis, Industrial Engineering, or Manufacturing Operations.
- Strong analytical and problem-solving skills.
- Proficient in Microsoft Excel and production reporting.
- Familiar with KPI monitoring, data analysis, and continuous improvement practices.
- Experience in a manufacturing environment is preferred.
- Good communication skills and able to work with cross-functional teams.
