募集要項

Key Responsibilities:
- Assist with the installation, configuration, and maintenance of IT hardware and software.
- Provide technical support to end-users, both remotely and in-person.
- Assist in the management of network systems, including routers, switches, and firewalls.
- Ensure the organization's data is securely stored and backed up on a regular basis.
- Monitor system performance and troubleshoot any issues that may arise.
- Collaborate with other IT team members to identify and implement process improvements.
- Maintain accurate records of IT assets, including hardware, software licenses, and warranties.
- Keep up-to-date with the latest IT industry trends and technologies.

Qualifications:
- Bachelor's degree in Information Technology or related field.
- Able to speak both Japanese and English
- Experience with virtualization technologies such as VMware or Hyper-V.
- Understanding of network architecture, protocols, and security.
- Familiarity with cloud-based services such as Microsoft Azure or Amazon Web Services.
- Excellent communication and interpersonal skills.
- Ability to work effectively in a team environment.
