募集要項

Company Overview

A company in the telecommunications and IT infrastructure industry is hiring for a Senior Network/Server Engineer. The role offers opportunities to develop technical expertise and progress toward a Maintenance Team Leader position in an international working environment.

Job Description

- Maintain stable, secure, and high-quality customer IT environments.
- Handle complex incidents and perform root cause analysis.
- Support customers as a key technical contact.
- Mentor junior engineers and improve maintenance procedures and documentation.

- Coordinate team tasks and gradually take responsibility for team management and quality control.

Qualifications

- At least 5 years of IT maintenance and operations experience.
- Strong knowledge of networking, security, Microsoft platforms, Azure, virtualization, storage, and backup solutions.
- Experience with Cisco, Fortinet, Juniper, Palo Alto, HP, DELL-EMC, IBM, or Nutanix.
- Strong troubleshooting, communication, and documentation skills.
- Good English communication skills.
- Reliable, proactive, and leadership-oriented.
- IT certifications and Japanese language skills are an advantage.
