募集要項

Our client, a Japanese engineering and trading company, is looking for an experienced Mechanical Design Engineering Leader / Supervisor to support automation and special purpose machine projects.

Key Responsibilities
- Design and develop Special Purpose Machines (SPM)
- Create 2D/3D drawings, assemblies, and BOM
- Perform engineering calculations and design reviews
- Coordinate with Production, Electrical, and Project teams
- Support machine installation, testing, and commissioning activities

Requirements
- Bachelor's degree in Mechanical Engineering or related field
- Minimum 3–7 years of experience in Mechanical Design Engineering
- Experience in Special Purpose Machines, Automation Systems, or Machine Maker industry
- Proficient in SolidWorks and GstarCAD/AutoCAD
- Strong understanding of mechanical design, manufacturing processes, pneumatics, and hydraulics
- Experience preparing detailed manufacturing and assembly drawings
- Strong analytical and problem-solving skills

Willing to travel when required
