募集要項

Location

London, United Kingdom

Working Arrangement

Hybrid

Employment Type

Initial 12-Month Fixed-Term Contract (FTC)

Potential opportunity to convert to a permanent position based on performance and business needs.

About the Company

A leading company providing IT and business transformation services to corporations across Europe.

System implementation and modernization

- PMO and project delivery support

- Digital transformation (DX)

- Process improvement and business transformation

- Data migration and systems integration programs

The Opportunity

We are seeking a Senior Consultant to join a large-scale banking system migration programme in London. The programme is currently at a key stage where planning activities need to transition into successful execution. The successful candidate will play a pivotal role in coordinating stakeholders, refining migration plans, driving discussions, and ensuring progress across multiple workstreams. This is an ideal opportunity for a hands-on delivery professional who can combine data migration expertise, PMO capabilities, and strong stakeholder management skills.

Key Responsibilities

Data Migration Leadership

- Support and coordinate data migration activities across multiple systems
- Review and improve migration approaches, plans, and schedules
- Identify and manage migration risks, issues, and dependencies
- Support execution planning and readiness activities

Project Delivery & PMO

- Drive project governance and delivery activities
- Monitor project progress, milestones, and deliverables
- Prepare status reports and project updates
- Facilitate workshops and steering discussions

Stakeholder Management

- Coordinate business, technology, and third-party stakeholders
- Build strong relationships with client teams and project sponsors
- Resolve cross-functional issues and drive decision-making
- Facilitate communication between multiple workstreams

Planning & Coordination

- Support migration strategy development and implementation
- Drive alignment across various project teams
- Assist with schedule reviews and planning revisions
- Ensure project activities remain on track toward delivery objectives

Required Skills & Experience

- Proven experience in data migration projects
- Banking or Financial Services experience
- PMO or project management experience
- Strong stakeholder management and coordination skills
- Experience working directly with clients and senior stakeholders
- Ability to operate independently and proactively
- Experience managing cross-functional project teams
- Strong communication and facilitation skills

Preferred Experience

- Core Banking experience
- Deposit systems experience
- Trade Finance knowledge
- Experience across the full project lifecycle, from planning through execution
- Experience reviewing and improving migration strategies
- Consulting firm background

Interview Process

- 3–4 interview stages

Additional Information

- **Start Date: ASAP (October start preferred)**
- **Visa Sponsorship: Not available**
- **Language: English required; Japanese would be an advantage**
- **Travel: Not required**

Application Note

Please note that only candidates who are shortlisted for interview will be contacted. Thank you for your understanding.

Notice: By submitting an application for this position, you acknowledge and consent to the disclosure of your personal information to the Privacy Policy and Terms and Conditions, for the purpose of recruitment and candidate evaluation.
