募集要項

We are looking for a **detail-oriented and proactive Production Planner** to join our client in Penang Science Park. In this role, you will be at the heart of the manufacturing operations — translating customer demand into achievable production plans, keeping capacity on track and ensuring materials arrive on time to keep the production floor running smoothly.

Job Responsibilities

- Perform overall planning activities which included daily production scheduling and customer shipment
- Derive, calculate and monitor machine capacities, efficiency and contribution for production
- Analyse customer’s forecast demand trends and develop a valid and achievable production plan for resource capacity and material planning
- Work with warehouse and buyer to ensure the material can be arrived as needed by production

- Handle abnormalities in production

Job Requirement

- Proficient in MRP and Microsoft Excel
- At least 3 years of working experience in the electronics industry
- High sense of urgency and responsibilities
- Good planning and organizing skills
