募集要項

JAC's client, an industrial real estate investment company is looking for a M&E Engineer position.
Location: Dong Nai Province

Job Responsibilities

- Manage and supervise M&E works for industrial park projects, including factories, warehouses, office buildings, and utility facilities.
- Review M&E designs and work with consultants and contractors to ensure project quality and schedule.
- Monitor construction progress, prepare reports, and verify completed work and contractor payments.
- Support testing, handover, safety compliance, and issue resolution during construction.
- Handle maintenance and repair of M&E systems during operation, and coordinate with internal teams as needed.

Job Requirements

- Bachelor’s or Diploma in Mechanical & Electrical Engineering (M&E) or related fields.
- At least 5 years of site-based construction experience, preferably in large-scale industrial, commercial, or infrastructure projects.
- Experience working for developers, project owners, or supervision consultants is an advantage.
- Good understanding of construction project management, strong communication, teamwork, and problem-solving skills.
- Proficient in MS Office, AutoCAD, MS Project, and other relevant engineering software.

Benefits

- 13th-month salary
- Fiscal year bonus
- Holiday bonuses during the year
- Private insurance
- Shuttle service
- Education allowance
- Language, phone, and transportation allowances
