募集要項

Job Description

- Manage overall Plastic Injection Molding production to achieve production targets.
- Control production output, quality, delivery, cost, and productivity.
- Manage production manpower, including supervisors, leaders, and operators.
- Solve production problems related to injection machines, molds, materials, and process conditions.
- Improve OEE, cycle time, scrap, downtime, and production efficiency through continuous improvement.
- Plan and monitor daily production activities to ensure production meets the schedule.
- Work closely with Quality, Engineering, Maintenance, and other departments to solve production issues.
- Ensure production operations follow safety, quality, and 5S standards.

Qualifications

- Bachelor’s degree in Engineering or a related field.
- At least 8 years of experience in manufacturing, with strong experience in Plastic Injection Molding.
- Experience as a Production Manager, Section Manager, or Production Supervisor.
- Strong knowledge of plastic injection processes, machines, molds, materials, and troubleshooting.
- Good leadership, problem-solving, continuous improvement, and English communication skills.
