募集要項

Responsibilities

- Manage MEP design and construction activities throughout the project lifecycle.
- Review technical documents including design drawings, shop drawings, method statements, and material submissions.
- Monitor construction progress, quality, cost, safety, and schedule compliance.
- Coordinate with consultants, contractors, and internal stakeholders to ensure smooth project execution.
- Manage testing, commissioning, inspections, and handover activities.
  Identify and resolve technical and construction-related issues.
- Conduct site inspections and ensure compliance with project specifications and regulations.
- Support project management activities and reporting requirements.

Requirements

- Bachelor's degree in Electrical Engineering or related discipline.
- More than 10 years of experience in MEP design and construction.
- At least 5 years of experience in a managerial or equivalent position.
- Solid knowledge of Electrical, HVAC, Plumbing, Fire Protection, ELV, and building systems.
- Experience in residential, mixed-use, or large-scale development projects is preferred.
- Strong leadership, coordination, and project management skills.
- Good communication skills in English.
- Proactive, responsible, and able to work independently.
- Willing to travel when required.

Benefits

- Competitive salary package.
- Performance bonus twice per year.
- Professional and international working environment.
- Opportunities for career growth and involvement in large-scale projects.

Company Overview

A reputable real estate developer specializing in residential and mixed-use developments, committed to delivering high-quality projects and sustainable urban development in Vietnam.
