募集要項

Company Overview

A company providing IT and technical solutions is seeking an IT Support Engineer to support technical solution design, customer consultation, and project implementation.

Job Description

- Conduct site surveys, analyze customer requirements, and recommend suitable technical solutions.
- Prepare technical drawings, equipment lists, quotations, proposals, and tender documents.
- Coordinate with Sales, Project Management, vendors, and contractors to ensure smooth project implementation and handover.
- Monitor project estimates, drawings, schedules, and documentation.

- Provide technical consultation to customers and research new products and solutions.

Qualifications

- Bachelor's degree in IT, Networking, Telecommunications, Electrical Engineering, Automation, or a related field.
- 2–4 years of experience in technical design, implementation, and project management.
- Strong networking knowledge and practical understanding of ELV, CCTV, IBS, and related systems.
- Experience in site surveys, testing and commissioning, shop drawings, and technical documentation.
- Proficiency in AutoCAD and Microsoft Office.
- Fluent English, strong communication.
- Ability to manage multiple projects independently and travel frequently.
