募集要項

Our client is a world class CNC manufacturing facility serving both international and domestic markets. With both PCBA Tooling and Precision Machining divisions, they combine to provide a stable, comprehensive, customer focused organization providing the highest quality parts, products, and services to several demanding industries. Join them to be part of an ever-growing team!

Job Descriptions

- Propose the best cutting tools and tooling strategies prior to CAM program creation, considering material, machine capability, cycle time, tool life, and cost.
- Create, release, and maintain tool assemblies, tool lists,and tooling data in the Tool Management System (TMS).
- Use Zoller tool pre-setter to measure and verify tool assemblies according to TMS specifications.
- Audit tooling setups, investigate non-compliance, and implement corrective actions.

- Support tool crib & machinist/supervisor on correct tooling usage and setup.
- Drive tooling standardization, cost reduction, and continuous improvement initiatives.

Job Requirements

- Diploma or Bachelor’s degree in Mechanical, Manufacturing or equivalent.
- Minimum 5 years of experience in cutting tools engineering & management.
- Strong knowledge of cutting tools, inserts, tool holders, shrink-fit systems, and work-holding principles.
- Hands-on experience with Zoller tool pre-setter, ZollerTool Management Systems (TMS), Powershrink Fit Machine and tool inventory systems.
- Solid understanding of CNC machining processes and shop floor operations.
