募集要項

This is an exciting opportunity for an experienced capacity planning professional to take on a strategic role within a global manufacturing environment

Job Responsibilities

- Develop and manage capacity plans to support business demand and manufacturing growth.
- Analyze demand forecasts, capacity utilization, and resource requirements to identify gaps and risks.
- Partner with Manufacturing, Supply Chain, Engineering, and Planning teams to ensure operational readiness.
- Support new product introductions, production ramp-ups, and capacity expansion initiatives.
- Drive continuous improvement projects to improve productivity, efficiency, and resource utilization.

- Prepare capacity reports, forecasts, and recommendations for management review.

Job Requirements

- Bachelor's Degree in Engineering, Supply Chain, Operations Management, or a related field.
- Minimum 8 years of experience in capacity planning, production planning, manufacturing, or supply chain operations
- Strong analytical and problem-solving skills with experience in data-driven decision making.
- Proficient in Excel and planning/ERP systems; Power BI experience is an advantage.
- Strong stakeholder management and project coordination skills.
- Experience in a manufacturing or electronics environment is preferred.
