募集要項

About the company
A leading Data Centre solutions and infrastructure specialist with extensive experience in data centre consulting, design, construction, and project delivery across mission-critical environments. Since its establishment, the organization has successfully delivered numerous large-scale data centre projects, supporting clients with high-availability and business-critical infrastructure solutions throughout Malaysia and the region.

Responsibilities

- Lead and manage the Project Management Office (PMO) to ensure successful delivery of data center projects.
- Oversee end-to-end project execution and governance across Data Centre infrastructure projects.
- Review and enhance project management SOPs, processes, and best practices.
- Manage project contracts, documentation, compliance, and stakeholder expectations.

- Coordinate with clients, consultants, authorities, vendors, and subcontractors throughout the project lifecycle.
- Conduct site surveys and evaluate project implementation requirements.
- Prepare project updates, reports, and presentations for management and stakeholders.
- Drive operational excellence and continuous improvement initiatives within the PMO.

Requirements

- Bachelor's Degree in Mechanical Engineering, Electrical Engineering, or a related discipline.
- Preferably 15 years of project management experience within Data Center, M&E, Construction, Infrastructure, or Mission-critical Facilities Environments.
- Proven experience delivering Data Centre projects.
- Strong Project Management and PMO leadership experience.
- Experience in contract administration, vendor management, and subcontractor coordination.
- Strong stakeholder management, communication, and negotiation skills. Ability to work independently and manage multiple projects in a fast-paced environment.
- Good command of written and spoken English.
