募集要項

The Business Development Assistant Manager role focuses on identifying and developing power generation opportunities while supporting projects throughout the development and tendering process.

Responsibilities

- Develop and implement business development strategies for power generation projects
- Identify and originate new greenfield and brownfield power project opportunities
- Manage bid preparation, proposal submission, and tender processes
- Manage relationships with key stakeholders, including the Ministry of Energy and Mineral Resources, PLN, partners, investors, and regulators
- Monitor project progress and ensure the achievement of key milestones

- Prepare periodic reports and recommendations to support management decision-making

Requirements

- Bachelor’s or master’s degree in Business Management, Economics, Industrial Engineering, Science, or another field related to the infrastructure business
- 3–5 years of relevant experience
- Excellent command of written and spoken English
- Knowledge of project development and independent power producer structures
- Familiarity with project finance
- Working knowledge of commercial contracts
- Ability to manage complex power project development activities
- Knowledge of energy regulations and markets

About the company
A company in the infrastructure industry with a primary focus on the energy and power sector. The organization supports the development of infrastructure projects through business development, commercial evaluation, stakeholder coordination, and project management activities.
