募集要項

As a Senior Analyst ? On our Topic Activation path within Energy Practice Area you will work in a growing global team, providing industry/functional expertise and insights whilst working together with case and proposal teams to provide knowledge assets, analysis and expert advisory. You'll serve as a thought partner and content expert to case teams and topic/sector leaders, helping structure and solve complex issues.

You will support commercialization efforts for energy sector, working in conjunction with business leaders, through contributing analysis and insights to proposals, client workshops and marketing materials. Additionally, as a Senior Analyst ? Consulting firm, you will contribute to developing intellectual property & assets for the business and assist in onboarding and training junior colleagues based on your expertise.
BCG's Energy Practice Area helps companies navigate an increasingly complex business climate. Our focus areas are 'Integrated Energy Transformation' and 'Low Carbon Energy and Infrastructure', including all "green energy" sectors. We work with the full range of players in the industry: integrated international oil companies (IOCs), national oil companies (NOCs), upstream players, oilfield service companies, refiners, petrochemical producers, and oil trading firms, integrated power and gas utilities, international power producers, renewable specialists, energy wholesalers and retailers, commodity traders, and infrastructure and industry service providers, water utilities and waste-management firms, governments,

regulators, industry associations, NGOs, technology companies, OEMs and suppliers to the energy and environment industry, energy-intense heavy industry players.

YOU'RE GOOD AT
Solving client problems through formulating relevant research and/or analytical approaches in power generation, with particular focus on topics related to large-scale renewable energy (incl., onshore and offshore wind as well as solar PV) and storage solutions
Developing solutions and driving new ideas, with limited guidance and often incomplete information
Communicating with case teams and stakeholders, in a credible way
Working collaboratively and effectively in a group dynamic often virtual, proficient in agile ways of working
Being flexible and bringing a curious and creative mindset, open to new things and able to propose innovative ideas
Navigating complexity and ambiguity

Employee Benefits:
Health Insurance (健康保険)
Employees' Pension Insurance (厚生年金)
Employment Insurance (雇用保険)
Workers' Accident Compensation Insurance (労災保険)
Commuting Allowance (通勤手当)
Annual Health Checkup (健康診断)
Paid Annual Leave (有給休暇)
Retirement Allowance / Corporate Pension (退職金・企業年金)

スキル・資格

2+ years of consulting experience in power generation and particularly large-scale renewable energy required; candidates with consulting experience strongly preferred
In lieu of consulting experience, 3+ years minimum industry experience required; 4-6+ years of industry experience strongly preferred
Bachelor's Degree required (advanced degree preferred)
Fluency in English and Japanese
Strong business acumen and problem-solving capabilities
Strong written and verbal communication skills
