募集要項

Our client is looking for Quality Control Specialist (QC) to support product development, production control, quality management, and supplier coordination activities for furniture-related products.

Responsibilities

- Manage product development processes from sampling stage through mass production
- Follow up on samples, materials, specifications, and product requirements
- Coordinate with suppliers and factories regarding production and quality requirements
- Monitor production schedules and delivery timelines
- Conduct quality management and continuous improvement activities

- Communicate and collaborate closely with Japan-based teams
- Manage shipment arrangements and delivery follow-up
- Support supplier relationship management and negotiation activities

Requirements

- At least 1 year of experience in the manufacturing industry
- Experience in merchandising, production control, quality management, sourcing, or related functions if preferred
- Experience coordinating and negotiating with factories and suppliers
- Good command of Microsoft Excel and Word
- Willingness to travel approximately 3-4 times per month
- Japanese language proficiency at JLPT N2 level or above

About the company

Our client is a Japanese company with a strong presence in the global market.
