â€•â€•â€•â€•â€•â€•â€•â€•â€•â€• Keep a data center's equipment moving, tracked and ready. Every server and part in a data center has to arrive, be checked, stored and shipped without mistakes. This role makes sure that happens, and is a

practical way into the fast-growing data center sector. US-headquartered commercial real estate and critical infrastructure services company (å¤–è³‡ç³» / ç±³ç³»). Kanagawa. On-site. Permanent. Up to Â¥8M. ã€What you'll doã€‘ You'll receive and process incoming shipments, pack and send outgoing ones (including secure shipments), and check every asset in and out so records stay accurate. You'll manage new and reusable equipment inventory in internal systems, run monthly cycle counts, and unbox equipment for the installation teams. You'll be the go-to contact for data center logistics, working with internal teams on deployments and equipment refreshes, supporting inventory audits and tool testing, raising material orders, and keeping stockrooms clean, organised and well supplied. ã€Why joinã€‘ Entry into a stable, growing industry; hands-on experience in a zero-downtime environment; global standards and an international team; room to build technical and operational skills. ã€What you bringã€‘ - Logistics, warehouse or inventory experience - Good written English and clear verbal communication - Basic Excel, Word and email skills - Calm under pressure, customer-focused, organised - Able to carry tools and parts up to 20 kg around the site ã€Applyã€‘ Apply via CareerCross or contact Drake International Japan.
