募集要項

Job Description

- Lead and manage the QA/QC team, including approximately 10 inspectors
- Oversee incoming, in-process, and final product inspections
- Establish and maintain quality control procedures and standards
- Handle customer quality requirements and quality-related documentation
- Support quality improvement initiatives and corrective/preventive actions
- Manage quality records, reports, and audit documentation
- Ensure compliance with ISO and IATF quality management standards
- Coordinate with production and management teams to resolve quality issues
- Prepare quality reports and communicate with overseas counterparts when necessary

Qualification

- Minimum 5 years of QA/QC experience in a manufacturing environment
- Experience in leading or supervising a quality team
- Strong knowledge of quality control processes and inspection standards

- Experience in metal stamping, metal processing, automotive parts, or compressor-related manufacturing is an advantage
- Experience managing quality inspectors and shop-floor quality activities
- Practical knowledge of ISO 9001
- Experience with IATF 16949
