募集要項

Ou client is a global technology, brand, and manufacturing company dedicated to enabling and advancing smart and sustainable living. With over 50 years of heritage and operations across Asia, Europe, and the Americas, they combine strong engineering capability with global manufacturing scale to deliver end-to-end product solutions. Join them and be a part of an ever-growing team.

Job Descriptions

- Lead the site quality team and establish quality objectives, priorities, and improvement plans aligned with customer requirements and business goals.
- Maintain compliance with applicable ISO 9001, ISO 13485, ISO 14001, ANSI/ESD S20.20, customer-specific requirements, and relevant electronics and medical manufacturing quality requirements.
- Lead investigation of quality issues through timely containment, disciplined root cause analysis, corrective and preventive action, and effectiveness verification.

- Lead, supervise, and coach quality engineers and QA/QC/QMS technical staff, setting clear responsibilities and development priorities.
- Use quality data, statistical analysis, audit trends, and lessons learned to improve product and process quality, reduce waste, and support manufacturing efficiency and profitability.

Job Requirements

- Diploma or Bachelor’s Degree in engineering, quality, manufacturing, science, or a related field is preferred.
- Min 5 years of experience in EMS and Medical manufacturing environment.
- Medical manufacturing experience is required.
- Strong working knowledge and practical application of ISO 13485 and ISO 9001, ISO 14001, ANSI/ESD S20.20
- Strong understanding of electronics manufacturing and PCBA/assembly processes, with experience in process validation, traceability, ESD control, new product introduction, and manufacturing transfer.
