募集要項

Position: CATO Cloud Network Engineer

Location: Tokyo, Japan

Language: N3 or Equivalent

Experience: 4+ years of relevant exp

JOB Description

- Introduction to Cato Cloud as an in-house WAN to Asia and Oceania (23 base footing point in 9 countries)
- Install Cato socket (SD-WAN device) in customer's local office / DC (Asian countries)
- carry out switching work from existing IP-VPN network by controlling local partners (from Japan)
- introduce 16 bases points in 5 countries in the first half of the year.

Technical skill

- MS Office
- DC scale NW experience.
- L2-L4 layer design, architecture and troubleshooting for the above

- Good to be familiar with Cisco, Juniper equipment
- Should have the ability to understand the configuration of the customer's existing NW from the configuration diagram and Config.
- Familiar with FW, SASE technology
- It includes the work of migrating the existing FW policy to the Cato cloud FW machine.
- Familiar with SD-WAN technology experience. For installation preferably.
- Preferably have the knowledge and install experience about SD-WAN.
- Since the Cato cloud itself is a new technology, it is possible to proceed with investigations with vendors in the event of unexpected behavior.
