募集要項

From Videoconferencing systems to digital signage and video walls, Vega is recognized as the market leader in AV solutions in Japan and as a Network Engineer you will be responsible for creating custom made innovative and exciting Solutions to

allow our broad range of international customers to get the most out of their Audio Visual Solutions.

スキル・資格

We are looking for an experienced Network Engineer, with a background in designing and implementing network solutions for complex technology solutions.

Vega offers employees a relaxed but challenging workplace that allows employees to reach their full potential by focusing on their relative strengths and providing guidance and training.

If you are interested in a position at Vega please contact us.

会社説明

Founded in 1986 in Hong Kong, **Vega Technology** is the biggest Audio Visual and Video Conference system integrator in the APAC region. **Vega Project K.K** is part of Vega Global and allows customers to enjoy Vega's high level of service and expertise (audio-visual installations, maintenance, distribution and sales) in Japan.

Vega has become one of the largest audio-visual products and total solution providers in Japan and has grown through a strong reputation in the market. We have a diverse team, with over dozen different nationalities working in primarily Japanese and English language across our business and a fun and empowered working environment.
